HEALTH AND SAFETY POLICY

Approving Body	Head Teacher
Date Approved	September 2022
Version	VI.3
Supersedes Version	VI.2 2021
Review Date	Yearly
Further information and guidance	Safeguarding Policy COVID Risk Assessment

STATEMENT OF GENERAL POLICY ON HEALTH, SAFETY AND WELFARE

Statement of Intent

This policy statement supplements and complements the more detailed statement issued by the Derbyshire Children's Services Department issued on the S4S site.

The school's Governing Body and Senior Management Team recognise and accept their responsibilities both under civil and criminal law and also under schemes of delegation for local management of schools. As responsible employers and/or persons in control of premises, the requirements to provide a safe and healthy working environment for all employees is acknowledged.

The school is committed to ensuring that risk assessments are undertaken, control measures implemented and systems of work are constantly monitored and reviewed.

In compliance with the Health and Safety at Work etc Act 1974, this schools Governing Body will ensure so far is reasonably practicable that:

The premises are maintained in a safe condition.

Safe access to and egress from the premises is maintained.

All plant and equipment is safe to use.

Appropriate safe systems of work exist and are maintained.

Sufficient information, instruction, training and supervision is available and provided to ensure staff are competent to fulfil their role in a safe manner.

Arrangements exist for safe use, handling and storage of articles and substances at work.

A healthy working environment is maintained including adequate welfare facilities.

In addition to the above commitment, the Governing Body also recognises its obligation to non-employees. Where it is reasonably foreseeable that pupils,

members of the public, contractors etc are or may be affected by the school activities being carried out on or within the school boundaries or otherwise, the Governor Body will make the necessary information, instruction, training and supervision available to ensure the safety of those affected. As an education provider which must set standards by example for its pupils, this commitment is seen as especially important.

The Governing Body will ensure through the Senior Management Team that adequate resources are set aside from the total budget allocation for the expressed aims of the policy statement to be properly implemented.

The Governing Body is committed to this policy and all staff are required to comply as a condition of employment. They are encouraged to assist in the Governing Body's commitment to the continuous improvement in our health and safety performance. For the policy to be effectively implemented the school must have the full co-operation of employees and others who use the premises.

Employees are reminded of the own duties:

To take care of their own safety and that of others;

To co-operate with the Governing Body and the Senior Management Team so that they may carry out their own responsibilities successfully.

To comply with all relevant, codes of practice and standards as necessary, and point out any shortcomings in these to management.

Consultation with employees' representatives will be held as and when appropriate on all matters affecting the health and/or safety of employees concerned.

A copy of this statement has been provided to every member of staff. Copies are also posted on the staff notice-boards. This policy statement and the accompanying organisation and arrangements will be revised as and when necessary.

This policy statement together with the organisational structure and the following arrangements and procedures has been approved by the schools Governing Body.

Responsibilities of Governing Bodies

Governing Bodies are responsible for ensuring that health and safety is maintained within their school. In order to do this, they must ensure that certain key elements are in place within the school. The responsibilities of Governing Bodies outlined below fall principally into the areas of monitoring of performance, ensuring health and safety matters are adequately resourced and ensuring that those staff who have specific health and safety responsibilities are aware of and undertake those responsibilities.

In particular, the Governing Body should ensure that: -

- The school has a health and safety policy (which can be based on the Children's Services policy and guidance) which is implemented within the school and that the effectiveness of this policy is monitored. The Governors should formally approve this policy.
- Health and safety is effectively managed in the school through appropriate management systems including risk assessments, inspections, communication systems, guidance, review and monitoring.
- The school considers health and safety as an on-going priority and ensures that health and safety obligations are included in school development plans.
- Health and safety responsibilities are allocated to appropriate staff within the school's organisational structure.
- When decisions on staffing levels are being considered that the health and safety implications of such decisions are fully considered.
- Adequate resources for health and safety are identified.
- They seek health and safety advice from Children's Services Health and Safety Section as necessary and that this advice is acted upon as far as is reasonably practicable.
- There is an appropriate forum for discussing health and safety issues, taking decisions and ensuring action is carried out. This could be full Governors' meetings or a sub-committee of the Governors where health and safety is a standing agenda item.

- They receive an annual report on the school's health and safety performance from the Headteacher to include, for example, the findings of risk assessments, any problems the Headteacher feels need referring to the Governors, accident statistics, any changes in working practice and any budgetary implications (this is not an exhaustive list).
- They receive on a regular basis any guidance issued by the Authority and take appropriate action as necessary.
- They review annually the health and safety performance of the school and set targets for achievement for the next year.
- All the County guidance on school journeys and adventure activities and licensing where appropriate is complied with.

NB: THE GOVERNORS OF VOLUNTARY AIDED AND FOUNDATION SCHOOLS ARE THE EMPLOYERS AND THEREFORE LIABLE FOR THE EMPLOYER'S RESPONSIBILITIES AS OUTLINED IN THE HEALTH AND SAFETY AT WORK ETC ACT 1974 AND THE MANAGEMENT OF HEALTH AND SAFETY AT WORK REGULATIONS 1999 AND OTHER SAFETY REGULATIONS MADE UNDER THE REMIT OF THE HEALTH AND SAFETY AT WORK ETC ACT 1974.

Responsibilities of the Headteacher

The Headteacher is ultimately responsible for the day to day implementation of health and safety in their school. This includes ensuring there are arrangements in place for the safe use of the school after hours for lettings and other events.

In order to effectively discharge this responsibility, the Headteacher should ensure that: –

- A school health and safety policy is developed with the Governing Body in line with the Children's Services health and safety policy and guidance and that this policy is fully implemented and monitored within their school.
- The policy is brought to the attention of all employees and is periodically reviewed.
- Their knowledge of health and safety issues is kept up to date.
- Individuals within the school staff are allocated appropriate duties in terms of health and safety management and that these are recorded in the school health and safety policy document.
- Staff are made aware of the health and safety guidance, and any guidance issued by the Children's Services which is relevant to their work.
- An annual report on health and safety is prepared and presented to the Governors.
- Inspections of the school are carried out as per Children's Services guidance and that appropriate action is taken to deal with the findings of these inspections.
- The school has a relevant number of people trained to carry out risk assessment.
- Risk assessments of all significant risks are carried out and that the findings of these risk assessments are communicated to all those who may be affected by the risk.
- Following risk assessment, an action plan is drawn up to ensure the identified risk reduction measures are followed up.
- Adequate resources are made available to ensure that the school meets its statutory obligations as far as is reasonably practicable.
- Staff training needs in terms of health and safety are identified and that staff receive adequate health and safety training where required. This should include ensuring that all staff (including supply, part-time and temporary staff, staff undergoing teaching training and students on work experience) receive as a basic minimum induction training on their first day in school.

- An appropriate hazard reporting system is set up and that there is a follow-up procedure to ensure actions have been taken.
- All equipment (both personal protective equipment and general equipment, eg tools, goggles, gloves, ladders etc) required to ensure health and safety, is provided and is suitable for the task for which it is intended and that it can be adequately and safely stored.
- Systems exist to ensure equipment is checked and where it is found to be faulty that it is taken out of use until repaired/disposed of.
- Safe systems of work are adopted and are documented.
- All goods purchased comply with the relevant safety standards and where there are health and safety implications for their use that these are considered prior to purchase and appropriate systems of work and risk assessments are put in place.
- Appropriate emergency procedures, eg fire drills, fire alarm testing, etc, are carried out in accordance with Children's Services guidance and that the results are recorded and where appropriate acted upon.
- Where contractors are appointed to work on the site that all appropriate health and safety documents (eg safety policy/risk assessments) have been seen by the school. That all risks presented by the contractor's work have been assessed and appropriate controls put into place and that the contractor has been made aware of any risks that there may be to their health and safety from working on the site.
- That there are systems in place to ensure that all necessary permits to work are completed for work by contractors.
- All parts of the premises and plant that the Governors are responsible for the repair and/or purchase of are regularly inspected and maintained in safe order. That any unsafe items which are the responsibility of the Authority are reported to them in the appropriate form.
- Where a situation presents an imminent risk of serious personal injury that action is taken to minimise that risk as far as is reasonably practicable irrespective of who is ultimately responsible for dealing with it under the LMS scheme.
- Appropriate first aid provision is ensured and maintained.
- Where the premises are used or let after hours that all appropriate health and safety considerations eg access, lighting, emergency escapes, access to a phone, access to first aid facilities, have been considered and the necessary actions have been put in place. That all the necessary insurance is in place and that a lettings agreement has been signed.

- Any health and safety guidance received from Children's Services is made available to the Governing Body so that appropriate action may be taken as necessary.
- There is appropriate liaison and consultation with Trade Union representatives.

School health and safety co-ordinator

The school health and safety co-ordinator has the following responsibilities:

To co-ordinate and manage the annual risk assessment process for the school.

To co-ordinate the general workplace inspections and performance monitoring process.

To make provision for the inspection and maintenance of work equipment throughout the school.

To manage the keeping of all health and safety records including management of the building fabric and building services in liaison with County Property division and other contractors.

To advise the Headteacher of situations or activities which are potentially hazardous to the health and safety of staff, pupils and visitors?

To ensure that staff are adequately instructed in safety and welfare matters about their specific work place and the school generally.

Carry out any other functions devolved to them by the Headteacher or Governing Body.

Teaching/non-teaching staff holding positions of special responsibility

This includes Deputy Headteachers, Curriculum Co-ordinators, Site staff, they have the following responsibilities:

Apply the school's health and safety policy or relevant Children's Services department health and safety guidance to their own department or area of work and to be directly responsible to the Headteacher for the application of the health and safety procedures and arrangements.

Carry out regular health and safety risk assessments of the activities for which they are responsible.

Ensure that all staff under their control are familiar with the health and safety code of practice, if issued, for their area of work.

Resolve health, safety and welfare problems members of staff refer to them, or refer to the Headteacher any problems to which they cannot achieve a satisfactory solution within the resources available to them.

Carry out regular inspections of their areas of responsibility to ensure that equipment, furniture and activities are safe and record these inspections where required.

Ensure so far as is reasonably practicable, provision of sufficient information, instruction, training and supervision to enable other employees and pupils to avoid hazards and contribute positively to their own health and safety.

Investigate accidents that occur within their areas of responsibility.

Prepare an annual report for the head teacher on the health and safety performance of their department or area of responsibility.

Class teachers

Class teachers are expected to:

Exercise effective supervision of their pupils, to know the procedures for fire, first aid and other emergencies and to carry them out.

Follow particular health and safety measures to be adopted in their own teaching areas as laid down in the relevant guidance, if issued and to ensure that they are applied.

Point out any shortcomings in health and safety arrangements relevant to their area of work.

Give clear oral and written instructions and warnings to pupils when necessary.

Follow safe working procedures, be aware of all risk assessments and appropriate control measure relevant to their area of work and teaching.

Require the use of protective clothing and guards where necessary.

Make recommendations to their Headteacher or Head of Department on health and safety equipment and on additions or necessary improvements to plant, tools, equipment or machinery.

Integrate all relevant aspects of safety into the teaching process and, where necessary, give special lessons on health and safety in line with National Curriculum requirements for safety education.

Avoid introducing personal items of equipment (electrical or mechanical) into the school without prior permission.

Report all accidents, defects and dangerous occurrences to their Head of Department.

Set a good personal example.

All Employees

All employees have health and safety responsibilities as outlined by the Health and Safety at Work etc Act 1974 and the Management of Health and Safety at Work Regulations 1999.

The health and safety responsibilities of employees are as follows. Whilst at work all employees will: -

- Make themselves familiar with and conform to the school's health and safety policy.
- Be aware of and comply with all school's health and safety guidance and instructions, safe systems of work and risk assessments, including control measures relevant to their area of work.
- Point out any shortcomings in the school's arrangements for health and safety (guidance, instruction, safe systems of work and risk assessments) to their Section Head or Headteacher as appropriate.
- Report all hazards and incidents occurring during the course of their work to their line manager. In addition to this, where the hazard is such that it represents an imminent risk of serious injury, the employee must take all steps within their control to make the situation safe.
- Use appropriate safety equipment and personal protective equipment/clothing which is provided by the employer and ensure that it is used by persons under their charge where appropriate.
- Co-operate with management in any situation related to health and safety, for example, the introduction of new procedures, initiatives or requirements.

- Co-operate with any investigations related to health and safety, e.g. accident investigations.
- Ensure that all persons for whom they have responsibility obey safety rules and safe systems of work.
- Not use equipment which they have not been trained to use.
- Take reasonable care for their own health and safety and that of other persons who may be affected by their acts or omissions.
- Report all accidents however minor or near misses.
- Not intentionally or recklessly interfere with or misuse anything provided in the interests of health, safety and welfare.

School Health and Safety Representatives

The Governing Body recognises the role of Health and Safety Representatives appointed by a recognised trade union. Health and Safety Representatives will be allowed to investigate accidents and potential hazards, pursue employee complaints and carry out school inspections within directed time but, wherever practicable, outside teaching hours. They will also be consulted on health and safety matters affecting all staff.

They are also entitled to certain information, e.g. about accidents and to paid time Off to train for and carry out their health and safety functions. However, they are not part of the management structure and do not carry out duties on behalf of the Head teacher or Governing Body.

Pupils

Pupils, allowing for their age and aptitude, are expected to:

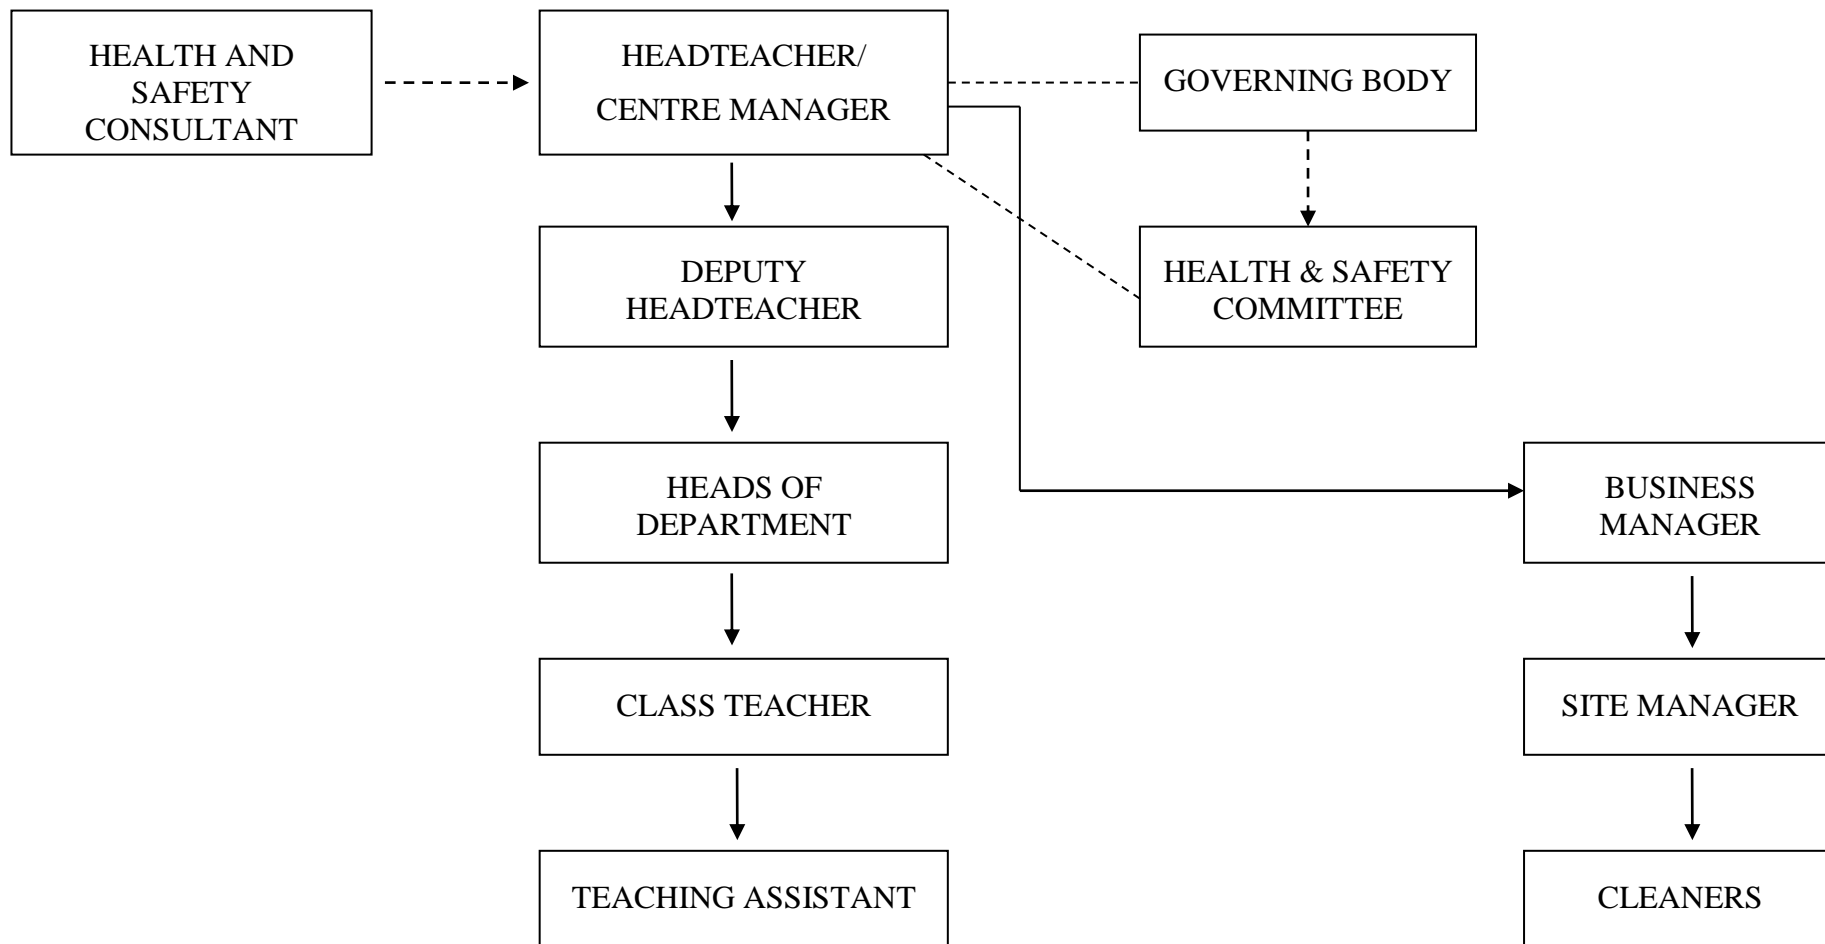

Exercise personal responsibility for the health and safety of themselves and others.

Observe standards of dress consistent with safety and/ or hygiene.

Observe all the health and safety rules of the school and in particular the instructions of staff given in an emergency.

Use and not wilfully misuse, neglect or interfere with things provided for their health and safety.

Organisational Responsibility for Health and Safety

Arrangements for Health and Safety

This is perhaps the most important part of the Health and Safety Policy. In effect it can be described as a list of rules to be followed by staff.

The following list of topics for which arrangements may need to be produced is intended only as a guide and you may need to add to the list, or delete from it as required. Some procedures may be available in the form of "guidance notes" or "policies" produced by the LA. These should be scrutinised and adapted to suit the particular circumstances of your school. An example of this is shown in the Accident/Incident Reporting section below.

The arrangements need to be kept under review and will need to be added to as new or revised policy/guidance is issued by the Local Authority.

The "arrangements for" list is as follows: –

Accident/Incident Reporting

All accidents and incidents in Tupton Primary and Nursery Academy will be reported and recorded in line with the Local Authority accident reporting guidance. In Tupton Primary and Nursery Academy all staff will report all accidents to Sally Bingham who will ensure that they are recorded in line with this guidance and who will be fully familiar with it. A copy of the guidance is held at the main office.

Administration of Medicines

Tupton Primary and Nursery Academy will only administer prescribed medications. They must be handed in to the school office and a medicines form completed by a parent or carer. Medication will be kept in a locked cupboard or the fridge, with exception of inhaler and medication that is required within a strict timeframe e.g. Epipen.

Adverse Weather

After consultation with the site staff and Chair of Governors, the headteacher will decide if the school site is safe to open. If not, parents will be informed of the school closure by text message.

Any closures during the school day will be done in line with Adverse Weather Plan

Asbestos

The asbestos register and file are kept in the main office. Anyone wishing to carry out work within school grounds will need to consult with the school business manager first.

Communication

Health and Safety is a standing agenda item at all staff meetings. If an issue is urgent it is raised with the headteacher or school business manager.

Consultation with Staff

Health and Safety is a standing agenda item at all staff meetings.

Contractors

Tupton Primary and Nursery Academy ensures that all contractors undertaking work on their site are competent, adequately insured, and are able to carry out their activities in a way which poses no threat of injury to anybody in the vicinity including pupils, staff, visitors or to a lesser extent, trespassers.

COSHH

- All items that are covered by COSHH are kept in a locked cupboard in the site manager's office
- Biological hazards (dirty nappies, items contaminated with bodily fluids e.g. blood) are disposed of in the yellow bins, which are emptied once a week by a contractor.

Curriculum Areas

- See subject specific policies for details of Health and Safety arrangements.

Disaster Plans

Disaster plans are held in the main school office.

Display Screen Equipment

Using a computer is not generally thought of as being one of the most hazardous activities to engage in. Yet health and safety risks do exist for both adults and children. Computers should not be seen as toys but as items of electrical equipment to be treated with respect.

Educational School Visits

All educational visits will be lead by an experienced member of staff, who will have visited the destination prior to the visit. They will conduct a thorough risk assessment before the visit and this will be read and followed by all staff taking part. Individual children may require their own risk assessments if they have medical or behavioural needs. An emergency plan will also be written for each visit. Visits must be approved through the Evolve System.

Fire

Fire procedures, to include:

- The headteacher is the duty holder
- Fire Risk Assessment can be found in the fire box in the main office
- The fire evacuation procedure corresponds with the procedure notices that are located around the school.
- Testing of the fire alarm is carried out by the site manager, who also holds and maintains the records
- Termly fire evacuation drills are carried out and the results recorded
- Inspection and service of fire fighting equipment is carried out by a contractor at the recommended intervals.

First Aid

First Aid procedures include:

- All staff are trained in basic first aid, which is renewed every three years
- EYFS staff, K Richards, S Bingham, R Croft and L Shepherd all hold paediatric first aid qualifications
- First aid boxes are located in every classroom and in the first aid room
- Class teachers/TAs must ensure that their class supplies are restocked when necessary
- Central resources will be restocked by the office staff
- Each classroom first aid kit will include gauze, sterile wipes, plasters and bandages

- The office staff will contact the emergency services if required
- Office staff will contact parents

Inspection of the Premises

Inspections will be carried out on a daily basis by the site manager to ensure that the premises are safe to open.

Three times a year the headteacher and site manager will carry out a premises inspection by completing a health and safety audit. Areas of concern will be identified and dealt with according to greatest need.

Lockdown

The school has a lockdown procedure which has been shared with all staff. Red Alert is broadcast over the school radios, which staff know indicates that doors should be closed (locked if possible) and children kept away from all windows. All clear will be broadcast once the situation has been resolved.

Lone Working

Most staff do not have access to the school buildings unless it is unlocked by the site manager. Anyone lone working must inform a member of the SLT when they arrive and when they leave the school building.

Manual Handling

The Manual Handling Regulations establish a clear hierarchy of measures for dealing with risk from manual handling, these are:

- Avoid hazardous manual handling operations so far as is reasonably practicable;
- Assess any hazardous manual handling operations that cannot be avoided; and
- Reduce the risk of injury so far as is reasonably practicable.

Mechanical/Electrical

All new electrical items must be added to the inventory by the school business manager. Second hand items can only be used once they have been PAT tested. PAT testing is carried out on a yearly basis.

Health and Safety Plan Monitoring Schedule *(delete and amend as appropriate)*

Annual Checks

Item	Check By	Comments
Risk Assessments

Fire Evacuation		
Visual Check of Electrical Equipment		
Premises Security		

Moving and Handling of Pupils

Will only be done in accordance with the instructions of professional people- occupational health, physical therapy team, medical professionals.

One off Activities

A risk assessment will be carried out for all one off activities that are not part of the school's normal activities.

Out of School Activities

Transport to be booked using an approved firm.

Ratios will vary according to the age and needs of the children and the activities being undertaken.

Personal Emergency Evacuation Plans (PEEP's)

Anyone who requires assistance to evacuate the building in an emergency will have a PEEP which will be shared with anyone working with that person.

Personal and Intimate Care

See the intimate care policy

Personal Protective Equipment

PPE is available to those people who require it as part of their job. When the need arises training will be provided.

Positive Behaviour Support Including Physical Intervention

See the behaviour policy

Premises

Arrangements for the use of premises outside normal working hours, e.g. entertainment licence, what information should be passed to groups who use the premises, etc?

Classrooms/offices.

Plant/Boiler Room.

Playground Safety

Arrangements for playground supervision and equipment/surfaces inspections.

Risk Assessments

Arrangements for carrying out risk assessments under current health and safety legislation, e.g. general assessments, COSHH assessments, annual handling assessments, PPE assessments, DSE assessments, etc.

Road Safety

Arrangements for the safe flow of traffic throughout the school site, including people and vehicles, etc.

Security

Security arrangements in order to prevent, where possible, unauthorised access to the premises, e.g. location of visitors' book, access points which may be closed to the public at certain times of the day, etc.

Site Access

Arrangements for safe access and egress of staff, pupils, visitors and associated vehicles.

Stress Management

Arrangements for identifying and managing stress, School Governors, Headteachers, senior teachers and school managers need to be aware of the effects stress can have on the school. It leads to impaired performance of individuals, increased sick absence, early retirement and higher turnover of staff.

The real extend of stress-related problems has been hidden because very few people are prepared to admit they are suffering from stress or to seek help for it. Few people who have not experienced the depression, anxiety and despair which often accompanies stress, fully appreciate the effect it can have on people's lives.

Training

Arrangements for identifying the training needs of staff and for ensuring adequate training provision, including the induction training for new recruits, both long term and short term. They system for recording any training and information given should also be included.

Violence at Work

Schools must ensure that a policy is in place, which clearly sets out the responsibilities, duties of staff, and procedures for preventing and dealing with violence within their areas of responsibility. School managers need to be aware that staff fears of violence can create a situation where their own uncertainty may make violence more likely and can result in unacceptable levels of stress.

Welfare Facilities

Arrangements for the provision and maintenance of welfare facilities, eg toilets, washing facilities, provision of drinking water, facilities for staff to make a hot drink and heating foods as well as eat lunch, provision for hanging wet clothing, etc

Waste Management

Arrangements for managing waste and associated secure points.

Wildlife Areas

Arrangements for managing and using school wildlife areas and gardens, eg staff-pupil ratios, provision of adequate fencing, selection of plants, etc.

It must be remembered that certain animals may attract vermin such as rats, particularly if a good standard of care is not maintained. Arrangements for dealing with this type of situation will need to be considered.

Work Related Learning

Work related learning describes a broad range of activities for pupils and students of all ages. It is aimed at learning about work, through direct experience, and as preparation for work. It involves using the context of the world of work to develop the knowledge, skills and understanding that will be useful in work.

Schools should have written policies clarifying:

- Objectives and responsibilities.
- Health and safety arrangements (including arrangements when hosting a placement).
- Use of only approved placements.
- Briefing/debriefing students before/after placements.

Working at Heights

Be safe; always use the right equipment when working at height. Every year 4,000 people suffer a major injury, sometimes fatal, as a result of a fall from height in the workplace. In the last 6 years there have been 5 deaths and over 3,000 injuries in the education sector. Here the school should detail it's work at height procedures.
